Easy Read

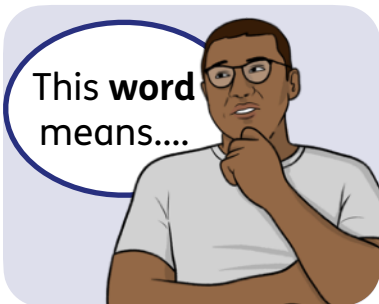

This is an Easy Read version of some information. It may not include all of the information, but it will tell you about the important parts.

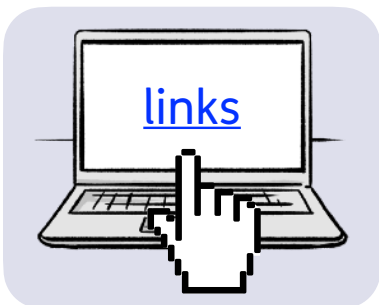

This Easy Read booklet uses easier words and pictures. You may still want help to read it.

Some words are in **bold** - this means the writing is thicker and darker.

These are words that some people will find hard. When you see a bold word, we will explain it in the next sentence.

About this survey

Buckinghamshire Council has written this survey to find out what you think about changes to our day centres and **overnight respite services**.

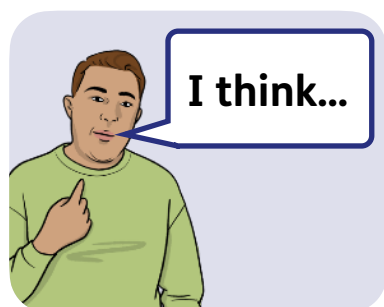

Overnight respite services mean carers can take a break from caring. The person they care for stays somewhere overnight.

The council runs 7 day centres. One of the day centres also lets people stay overnight.

We know that the centres are important to people, but they are not used enough, and need a lot of work. So we want to make changes.

Please read the information in this booklet, then tell us what you think of our ideas.

Why we are making changes

Our day centres are important. They give people a chance to meet others and be more independent.

But, since 2020, less people have been using the day centres. This is because:

- They can take part in activities in their local area instead.

- More people are getting care in the place they live.

- People want more choice about the services they use.

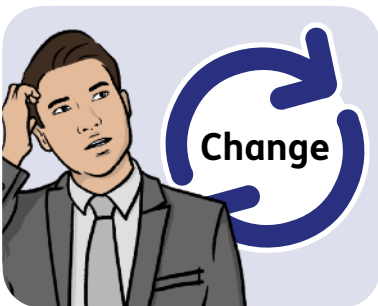

The day centres cost a lot of money to run.

We want people to have good day activities and overnight care services.

These services should mean that they can live on their own and help them be a part of the community.

So we need to think about whether we should change our day centres and overnight respite services.

Our choices for change

We have 3 choices for what to do.
They are:

1. Do nothing, and keep all 7 day centres.

2. Use a mix of council day centres and services run by other organisations.

3. Close all council day centres.
People will only get support from services run by other organisations.

When we think about what to do, we are thinking about:

- Making sure we can give people a good service.

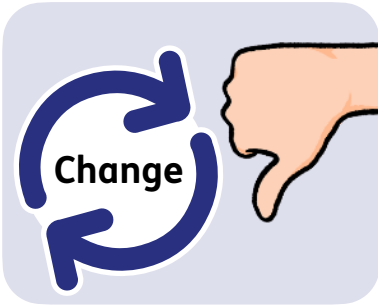

- Making sure that our service will keep working long into the future.

- Checking that we are spending our money wisely.

Making no changes

If we keep all 7 day centres, this means:

- Staff and adults with learning disabilities will not need to make any changes.

- The service will not be best for everyone's needs.

- Some buildings will not be used enough.

- We will need to spend a lot of money to make all the buildings better. It will cost us more money to run the centres.

This would cost more money than the council can afford.

Closing all council day centres

If we close all council day centres and only use other services, this will mean:

- We will make money from selling buildings.

- We will not need to spend as much money on the buildings or the staff who work there.

- There will be big changes for families, carers and staff.

- Other services might not be able to do everything we need them to do.

This means we might need to spend more money sending people to services in other parts of the country.

Using a mix of services

We think it would be best to use a mix of council day centres and services run by other organisations.

This would mean:

- We can give people a choice about the type of support they get.

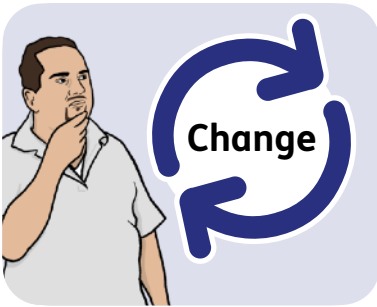

- We could afford to improve the buildings we keep.

- We could do more to help adults with learning disabilities in their local area.

It would also mean:

- There would be some changes for families, staff and carers if their local day centre closed.

- We would need to use other services to help people who need a place to stay overnight.

We would keep 3 day centres:

- Aylesbury Opportunity Centre in Aylesbury.
- Spring Valley Day Centre in High Wycombe.
- Chesham Short Breaks Centre in Chesham.

We would not use these day centres anymore:

- Buckingham Day Centre.
- Hillcrest Day Centre.
- Burnham Day Centre.
- Seeleys House.

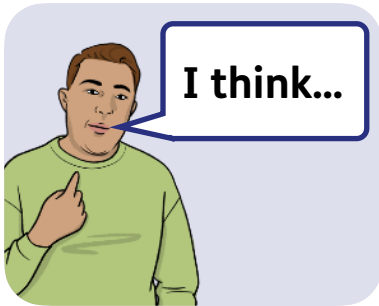

But we would still give people the care and support they need.

They might get this support from other organisations in different places.

What do you think?

Please tell us what you think of our plans.

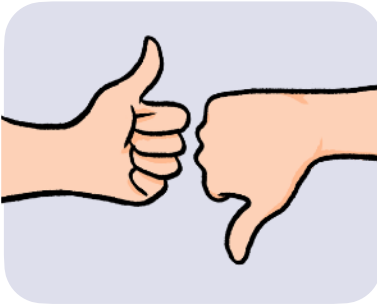

You can do this by filling in the answers in this booklet.

Day centres

We think it would be best to use a mix of council day centres and services run by other organisations.
