### **Overview**

**We want to hear your views on the new Buckinghamshire Homelessness and Rough Sleeping Strategy which will set out how we intend to tackle homelessness to 2025.**

The Homelessness Act 2002 requires all housing authorities to have a Homelessness Strategy in place.

Buckinghamshire Council has been working with its key partners to develop a draft Homelessness and Rough Sleeping Strategy that will set the framework for how we tackle homelessness over the next three years.

This will be the Council's first single homelessness strategy since it was created. It will build on the work and priorities in the strategies of the former district councils.

### **The draft Homelessness and Rough Sleeping Strategy 2022 to 2025**

The draft Homelessness and Rough Sleeping Strategy is intended to focus on the Council's key main priorities for tackling homelessness and setting the direction of travel going forward.

We are seeking feedback on the draft strategy document and the proposed priorities for action going forward. We want to hear from anyone who may be affected or wishes to comment on how Buckinghamshire Council is addressing homelessness going forward.

## **Proposed priority areas for tackling homelessness**

The draft strategy sets out the following priorities:

- To provide advice, information and support on housing and related issues to enable those at risk of becoming homeless to take steps to remain in their accommodation where feasible and appropriate, or to undertake a planned move if required
- To identify those at risk of becoming homeless at the earliest possible stage, and to intervene proactively to prevent them becoming homeless
- Where a household does become homeless, to support them to find appropriate alternative accommodation as quickly as possible
- To prevent anyone having to sleep rough
- To maximise the supply of affordable rented accommodation

### **The priority areas we have identified are equally important.**

In addition to these priorities, there are two cross-cutting themes to which we will continue to address with associated plans and ideas. These are:

- Making best use of resources
- Partnership working

### **How the Strategy has been developed**

The draft strategy document has been prepared based on:

- A review of the existing homelessness strategies that were carried forward from the former District Councils
- Analysis of key data and information on homelessness (both local and national)
- A series of stakeholder sessions involving Councillors, external partners and officers to inform the key priorities and content of the strategy

For more information about how the strategy has been developed, please see the Evidence base for preventing homelessness and rough sleeping strategy.

The strategy will be a live document, subject to an annual review to:

- Establish whether the key main priorities remain relevant, and / or
- Identify any revisions that may need to be made to reflect national and local homelessness circumstances and trends.

The draft strategy is accompanied by an Evidence Base document which provides technical and statistical background information and a summary of the stakeholder sessions that informed how the Strategy has been developed.
